Benefits

- With the time saved by using SolidWorks, designer gain more time on innovate new and better machine.

Why IME

IME provided competitive solution and services in the market. IME provides professional after sales support whenever needed by EPSON.

Success Metrics

- Reduce design error made, as design can be viewed in 3D.
- Lower design cost by 20% – 30%.
- Shorten the design and development time by 30% – 50%.
- Increase product manufacturability by 30% – 40%.
- Improve collaboration / communication between engineers and designers.

Challenge

- Possessed Mini Auto Lathe Machine in the factory.
- Create and manufacture different design produced by the R&D department.
- Remain in 2nd testing module for the project which started in year 2011.
- Difficult to reproduce pattern and more machine if the project is successful.

Solution

- SolidWorks software enables us to design our machine in detail.
- Able to analyse and perform design changes faster as compared to the Autocad software.
- Users friendly and ability to present proposed design to top management level easily.

Industry:

Manufacturing (End watch parts)

Previous CAD (years of using) :

Autocad (1998)

Product(s) Used (years of using) :

SolidWorks 2008 standard

About IME Technology

IME TECHNOLOGY is the most established SolidWorks Certified Sales, Training and Support Centre in this region with 19 years of experiences that we learned from our customers. Through innovation, we are committed in providing a wide range of professional services to our valued customers. Leading by 2 SolidWorks Elite Engineers and backup by 8 certified SolidWorks expert (CSWE), IME technical support team will ensure the partnership between SolidWorks, IME and our customer will grow, shine and sustain. Our complete total solutions include 3D design, Analysis, flow simulation, Data Management, technical documentation and training services. Get the best solution from the best provider in Malaysia.
